Delta system - calor

The Delta range are sophisticated air handling units incorporating hybrid heat pump and fresh air dehumidification technology. With dynamic heat recovery to swimming pool water and air using a heat pump, the Delta is the ultimate solution for a commercial or domestic indoor swimming pool.

Products - Temperature Controllers - Delta Group

The Calorex seems to be designed for 7C outdoor temp and functions well at this temp, however below 3C and its duty really drops off very quickly. Must be one of the worst heat pumps that I have seen and its data sheets only confirm its output down to 0C (most systems are down to -15C these days)
