So the ideal is to have something that will give you a broad range of applications. You can buy needle and nozzle sets separately for many airbrushes to give you more flexibility, and this is a feature worth considering when choosing your airbrush. To get started, anything between 0.2mm and 0.5mm will give you the range for most applications.

getting started. hi there! i got an airbrush kit yesterday as a super late birthday gift! it is a neo air compressor and a neo air "cn gravity feed dual action airbrush". i managed to get it together this morning but have yet to try it out. i am a painter and general art person who does acrylic paint and ink stuff. ...

**The Complete Airbrush Equipment List: Start Airbrushing ...**

If you can use an aerosol can, you can use an airbrush. The two work in the same way, but the airbrush offers a finer spray and more precise control. This tutorial uses a double-acting airbrush, which is suitable for novice and intermediate modellers. The double-action is important, since the same trigger controls the paint and air flow.
