### **The Stone Age - Hands on History Ltd**

His research findings raise the possibility that the role of females in Stone Age art was greater than previously thought, although - since we don't know for sure that hand paintings were created by "artists" rather than mere "spectators" - more evidence is required before a definite conclusion can be reached. We do know, however, that both handprints and hand stencils were left by cave dwellers of all ages, including children.

### **Science in the open: bringing the Stone Age to life for ...**

The first phase of human existence was the Paleolithic (Old Stone Age), which spanned ca. 2,500,000-10,000 BC (see The Stone, Bronze, and Iron Ages). From the very beginning of this period, humans made stone tools. If one counts these tools as works of art, the history of art begins with the evolution of humans.
