Introduction to Airborne Radar (Aerospace & Radar Systems ...

First is a radar of the sort used by the all-weather interceptors of the 1950s and 1960s, called simply a 'pulsed' radar. In different configurations, it still is used today. The second generic type is a far more capable one, called a 'pulse-doppler' radar. It is the kind used in the current generation of conventional fighter and attack aircraft.
