It was, in theory, another fresh edition of
Prime Minister's Questions - Boris
Johnson's first since his election victory -
but it made much more sense as a kind
of election Match of the Day. Football
pundits have it harder than political
pundits, you see.

More than 50 different modifications and experimental vehicles based on the T-26 light infantry tank chassis were developed in the USSR in the 1930s, with 23 modifications going into series production. The majority were armoured combat vehicles: flame tanks, artillery tractors, radio-controlled tanks (), military engineering vehicles, self-propelled guns and armoured personnel carriers.
