### OPERATING MANUAL

you can set your control to manual or automatic, if set to manual when the bale chamber is full an alarm will sound then press the tie button this in turn will turn on a solenoid which trip the cord the cord is pushed into chamber by a flexible flap, on older rp200s the dual cord can be a nightmare, but you can use a single cord and this works fine, also when threading cord wrap cord around motion pulley 5 to 6 times it saves the pulley, the cord cuts the pulley.
